

Partnership working across traditional boundaries

Anne Bristow

Chair of ADSS Sensory Services Group

Social Care

- £17 billion industry
- Employs 1.6m people
- Works with 1.7m adults each year

Seeing things more clearly

- Make everyday life easier
- Services that are easy to use
- Put users at centre and in control

Our Health, Our Care ,Our Say

- better prevention services with earlier intervention
- more choice and a louder voice
- do more on tackling inequalities and improving access to community services.
- more support for people with long-term needs

Regaining independence

- Preventing Falls
- Getting an eye sight test
- Equipment
- Library Services
- Street scene
- Daily living activities

Specialists ?

- Do we need them?
- What for ?
- What kind of specialist ?

Partnership is tricky

- Same words – foreign language
- Data sharing
- Premises
- Who pays ?
- Whose rules? (governance)
- How do we know it works ?

Making it happen

- Be clear about outcomes
- Keep the focus on real people
- Involve all the experts

Interest the Commissioners

- Map population needs
- Demonstrate numbers involved
- Identify the service model
- Know what it costs
- Invest to save

Local partnerships

- Identify local champions
- Use the Low Vision Committee
- Link to joint planning/commissioning
- Local Strategic Partnerships

And together

we can make

a real difference !

Delivering the Vision
